

CANTEEN Policy

Rationale:

The school's canteen reflects healthy eating practices to students and the wider school community. In addition to providing nutritious foods the canteen has an important health promoting role, by modelling healthy nutritional norms and standards.

Students who use the canteen regularly, receive a significant proportion of their daily total food intake from the canteen. Nutrition is important to health throughout life, and it is particularly important at times of rapid growth and development, which occurs in school years.

Aims:

- To provide an enjoyable, nutritious and attractively presented selection of foods and drinks at reasonable prices, via a creative, regularly changing menu.
- To promote and encourage healthy food choices.
- To promote a litter free environment.

Implementation:

The canteen will:

- Provide an online lunch order service 3 days per week. Wednesday, Thursday and Friday.
- Provide over the counter snack sales at recess 3 days per week. Wednesday, Thursday and Friday
- Comply with the current Food Hygiene Regulations and Training.
- Consider all department requirements including the Healthy Canteen Kit – Food Planner.
- Comply with Work Health and Safety Regulations.
- Comply with all relevant school policies.

Evaluation:

- This policy will be reviewed in Term 4 of each year.

This policy was last ratified by School Council in....
