

STANDARD 1

Strategies to embed an organisational culture of child safety

Footscray West Primary School is committed to providing a safe, supportive and inclusive environment for all children as outlined in the school's Statement of Values and School Philosophy and other school policies including the Child Safety Policy. This is further supported by codes of conduct for staff, students and parents.

The school ensures that all ancillary staff i.e. CRT's, canteen and sound garage receive the appropriate training from their employers and all have current working with children checks.

The Assistant Principal oversees the wellbeing of all students at the school and is supported by the wellbeing team which consists of senior staff and the Primary Welfare Officer.

All policies and codes are reviewed according to the recommended departmental cycle by the policy and planning subcommittee of school council which consists of parents and staff. Consultation with other teams/avenues within the school occurs to support a robust process

Policies are disseminated to members of the school community as outlined in the Communication of School Policies Policy

This standard is supported by the following policies and codes of conduct:

- Attendance
- Bullying Prevention
